Lasita Maja

# MORE THAN 20 YEARS OF QUALITY

## EVERY GARDEN CABIN BEGINS WITH A DREAM.

It's your dream. At Lasita Maja, we just bring it to life.

As an experienced manufacturer of high-quality blockboard cabins, we produce children's playhouses, pavilions, garages and individual holiday homes, as well as classic garden cabins. To do this, we use the best wood and combine modern and gentle processing technology with traditional craftsmanship and secure packaging. We are well aware that high quality equals happy customers. And if there's one thing that matters more than most, it's getting the details right.

## HIGH-QUALITY WOOD

We use only selected Nordic spruce for our garden cabins. Thanks to its flexible properties, it is perfect for use as building and construction timber. Its slow growth in Europe's colder regions makes the wood particularly stable and solid. In addition to a natural look, our holiday homes are also available in four colours: Swedish red, granite grey, glacier green and light grey.

To ensure that we deliver a unique product, we rely on a combination of long-standing employees with a great deal of experience and modern machinery. Trained eyes inspect and sort the materials and components. Our precision machine tools saw, plane and mill the individual parts to the correct dimensions and shapes. Before being carefully and securely packed, everything undergoes a final inspection.

So that we can continue to offer our customers the best quality, we have implemented a quality management system that complies with the requirements of the ISO 9001 standard. Our products also come with a 5-year warranty.

## HIGH-QUALITY NORDIC RAW MATERIALS, STATE-OF-THE-ART PROCESSING AND DECADES OF EXPERIENCE: OUR RECIPE FOR SUCCESS.

## DELIVERED TO YOUR DOOR

### The assembly kit

Your garden cabin will be delivered as a complete kit in one or more packs. Comprehensive assembly instructions are included. If you do not begin assembly immediately after delivery, store your garden cabin in a dry location, protected from UV light.

### Delivery

We deliver our products to your specialist dealer on request or "to the kerb" at your home for an additional charge. Delivery will be made on the agreed date using a 40-t HGV. There must be no restrictions to access for this vehicle.

ÖREBRO

p. 30

These are real little homes, for living in during the year's short time-outs. Find your own personal time-out cabin with us!

MALMÖ

p. 28

**A diverse selection**

From small to huge: **1** The two-storey Örebro cabin with a floor space of 40 m<sup>2</sup> impresses with its bright sleeping loft. **2** A terrace can also be added to each of our holiday homes. **3** The Malmö cabin offers plenty of space over two floors, as well as an optional roof over the terrace. Windows on three sides allow sun to flood in at any time of the day **4** The Östersund cabin will also impress with its large windows, high quality and plenty of space in a small area.

ÖSTERSUND

p. 20

**WHETHER ONE OR TWO STOREYS, 40 OR 100 SQUARE METRES – YOUR PERFECT FEEL-GOOD RETREAT AWAITS!**

NOT BEING A STRANGER AWAY FROM HOME. NOT HAVING TO WONDER IF ALL THE UTENSILS WILL BE THERE. WHAT THE BEDDING IS LIKE. THAT IS WHAT A HOLIDAY MEANS TO ME.

**SIMPLY HOP IN THE CAR AND ARRIVE. AT HOME. YET AWAY.**

# THE DREAM OF A HOLIDAY HOME: WHAT YOU SHOULD BEAR IN MIND.

## Our garden cabin and holiday home concept

At Lasita Maja, we value individuality and creativity. That's why we specialise in developing custom cabin solutions. The designs in this catalogue are intended to inspire you and give you ideas for your own concept. Each model shown can be changed, adapted or completely redesigned. So be sure to have your sketchbook by your side when looking through the countless models available; don't be afraid to draw everything that comes to mind. Because we want to work with you to build the holiday home you imagine. So we can make your dream of the perfect holiday home or garden cabin a reality.

Feel free to contact us. We will advise you, step-by-step, until your dream house is delivered.

## COMPLETE FREEDOM IN THE PLANNING OF YOUR HOLIDAY HOME

### Materials and product classes

We use selected Nordic spruce (*Picea abies*) for our products, which has proven itself in holiday home construction. Finger-jointing of the material enables us to also produce constructions exceeding the standard length of the log (6 metres). We offer wall thicknesses of 44, 70 and 92 mm.

Further details on our products such as e.g. wood type, wall thickness etc. can be found on pages 10-15.

As when building a home, there are a few things to consider when building a holiday home.

## WHAT IS THE CABIN GOING TO BE USED FOR?

If the house is intended to function as additional living space, the planning/construction must be oriented towards this. If it is to be used as a storage space, more emphasis should be placed on the floor, which must support the weight of the stored items. Consideration should also be given to an alternative type of access for a wheelbarrow or even a vehicle. If the garden cabin is to be used for creative activities, the interior will need to be well lit. All these considerations will affect the appropriate design of your product. So ensure that you define the intended use as precisely as possible.

## CHECKLIST

1. Select a suitable location
2. Familiarise yourself with the building regulations in your region
3. Plan your garden cabin or holiday home with Lasita Maja
4. Consult with our planning experts
5. Plan and quotation
6. Financing the project
7. Obtain a building permit from the responsible authority
8. Selection of the architect/fitter/contractor
9. Coordination of the different projects
10. Compilation of the order
11. Organisation of the installation

So you can see, there is a lot to think about and also a lot to do to turn your holiday home into your dream. But don't worry!

At Lasita Maja, we have many years of experience and are always available to provide you with expert support.

**Thought of everything? Take another look at our checklist. There is also space for your own notes on the last pages of this catalogue.**

# HOLIDAY HOMES

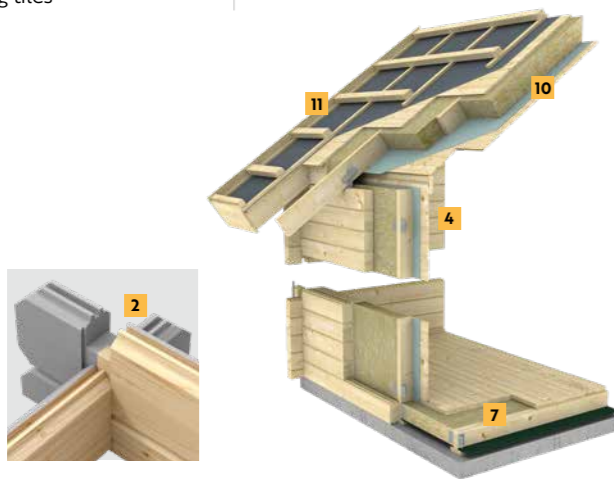

## RELIABLE TECHNOLOGY FOR SITTING BACK AND RELAXING.

This is a real little home, for living in during the year's short time-outs. So it must be of a correspondingly high quality. The focus of our holiday homes is on construction, functionality and workmanship!

| DESIGN   |                             |
|--|-----------------------------|
| 1 Wall thickness mm  | 44 / 70 / 92                |

Barbados 2

Reverse installation possible in natural

Double wall construction

11.4 m<sup>2</sup>

Barbados 3

Expand your garden cabin with our practical lean-to shed. For more information on this see page 44.

Barbados 2 and 5 Double are holiday homes with 244 mm thick double walls. This enables the gap between the walls to be insulated, allowing the holiday homes to be used all year round. We recommend using a professional installation service, as the assembly is more complex than with classic garden cabins.

# GARAGES. THE OPTIMAL SPACE, NOT ONLY FOR THE CAR.

Do you need more space in your home? No problem! Our garages offer ideal storage options for your vehicle, your bikes or even your workshop. All garages are delivered without a floor.

All garages can be ordered in four variants: 1. without garage door, 2. with wood double garage door, 3. with Hörmann steel up-and-over garage door with profile board frame, 4. new to the range is our sectional garage door, which you can order for selected models.

## STANDARD ROOFING FELT

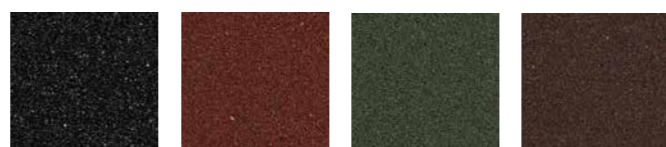

Suitable for short-term use or as underlay for other roof coverings such as shingles or premium roofing felt, available in classic grey, on a 10 m<sup>2</sup> or 15 m<sup>2</sup> roll.

|             | ROLL 10           | ROLL 15           |
|-------------|-------------------|-------------------|
| Item number | 261               | 262               |
| Floor area  | 10 m <sup>2</sup> | 15 m <sup>2</sup> |

## PREMIUM ROOFING FELT

High-quality polymer bitumen roofing felt – suitable for long-term, waterproof covering of roofs, available in 4 colours, on 15 m<sup>2</sup> roll.

|             | BLACK             | RED               | GREEN             | BROWN             |
|-------------|-------------------|-------------------|-------------------|-------------------|
| Item number | 37449             | 37451             | 37452             | 37453             |
| Floor area  | 15 m <sup>2</sup> | 15 m <sup>2</sup> | 15 m <sup>2</sup> | 15 m <sup>2</sup> |

## ROOF SHINGLES

The 3-strip roof shingles are the most widely used roof shingles. They are easy to install and guarantee a stylish, high-quality appearance, available in the 4 most popular colours, 3 m<sup>2</sup> per pack.

|             | BLACK            | RED              | GREEN            | BROWN            |
|-------------|------------------|------------------|------------------|------------------|
| Item number | 263              | 16274            | 16275            | 264              |
| Floor area  | 3 m <sup>2</sup> | 3 m <sup>2</sup> | 3 m <sup>2</sup> | 3 m <sup>2</sup> |

## ONDULINE

ONDULINE KSK-M is a cold self-adhesive roofing membrane with an aluminium top layer and a particularly high adhesive strength. It is easy, safe and quick to apply. The aluminium top layer offers outstanding protection against UV radiation and other environmental influences. The substrate must be dry, stable, frost-free, grease-free and resistant to abrasion. Does not stick to silicone. Unevenness, holes and similar must be levelled or filled. Dimensions 500 x 100 cm.

|             | GREY             |
|-------------|------------------|
| Item number | 37470            |
| Floor area  | 5 m <sup>2</sup> |

## INFRARED HEATER

In Jura marble

Made of genuine Carrara-style marble

Marmory infrared heater: Beneficial infrared heat and healthy climate with state-of-the-art controls. Everything is possible, from a number of daily and weekly settings, frost protection or holiday mode to "open window detected". Simply install, plug in and feel really good. Connection voltage: 230 V, 50 Hz. When installing in a garden cabin, a non-combustible plate must be mounted between the heating panel and the wall as a base for the heater.
